I think you've got a moto G4, or E4? My G4 Play shows only the 14-digit MEID HEX, even in the settings menu..) Will try this now Please or to join the conversation Postage to: United Kingdom, Austria, Belgium, Bulgaria, Croatia, Republic of, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Australia, United States, Russian Federation, Canada, Brazil, Japan, New Zealand, Israel, Hong Kong, Norway, Indonesia, Malaysia, Mexico, Singapore, Korea, South, Switzerland, Taiwan, Thailand, Saudi Arabia, South Africa, United Arab Emirates, Ukraine, Chile.. Anyone know why my MEID isn't matching the number of digits CellNuvo says it should? I think you're seeing the MEID HEX, and CellNuvo apparently wants MEID DEC.

KentE wrote: MicrotonalBanana wrote: My MEID is only 14 digits instead of 18 and it won't activate for me.. I believe for original activation, CellNuvo would accept either version, but not maybe not for app authorization.. Convert IMEI, ESN, and MEID numbers online No signup required!(Never noticed this before..) I've tried these 2 sites for converting the HEX to DEC format, and it seems to work (converted to DEC via the first link, and entered DEC to convert back to my known HEX on the second link.
