Please, remember, that fatal errors are not related to the waste overflow errors and they can not be reset by software.

If you experience communication errors or do not see your printer, please, try the following:

- Restart the printer and PC. Make sure that USB/Wi-Fi connection is of the good quality. Try to change USB cable and port if applicable.
- Disable 'status monitor' and 'my epson portal' via printing preferences or task manager if they are supported by your system. [\[Click here to find out how\]](#)
- Cancel all printer jobs and disable all applications and services that can communicate with the printer.

Reset started. Do not turn off the printer.

Reset completed. Please restart the printer immediately.

Important!

In order to apply all changes made to the printer you turn it off immediately (using the printer power button). Successful reset isn't completed until printer has been powered off and on again. Failure to restart the printer may result in all counters/states returning to their previous settings.

**Please, turn printer OFF now.**
